

Have you ever gone to make a pod cast not knowing what to do ?
Well here's how, Were gonna tell you some things about how to make a pod cast ..

The first thing you do is make a pod cast script about whatever subject your gonna be talking about. It helps you to remember what you are gonna say when your recording the pod cast . Than the next thing you need to do is make sure you have a recording program like : audacity , or another program that you know of . After that make sure that your satisfied with your pod cast .

To record your pod cast go to audacity and when your ready to record press the red record button and start talking into the microphone . Than if you don't like how it sounds you press the (x) on the left to delete what you recorded . Just say you like most of it but one part doesn't sound good you can highlight it and than press delete and than that part that you didn't like will be gone . When your recording make sure to talk clearly and not to close to the microphone and be fluent and don't be too loud .

The third thing you need to do is listen to it.
Than if you wanna add music you need to have mp3 or music files .
You can not steal someone else's music which is the copy right law . For example you cant go on lime wire and get music or you tube because its stealing someone else's music .
You could go on sound jay which is a music website that you can get music from .
All you have to do is include the sponsors name were you got the music in the pod cast at the end. This is how you put music on , you go to the website and drag the music into audacity but to be able to do that you need to have it in your music on your laptop.

So now you no all about how to make a pod cast and as you start making more you'll learn more about them . There are also more web sites and other things where you can learn more about how to make them and use them . So are you ready to make your pod cast ?
